

NUT ALLERGY WAIVER

Catalan Soccer Childcare Camps operate a packed-lunch policy and do not provide children with food directly. Our nut-free policy is communicated directly to parents via **confirmation emails** and reminder **SMS text** messages before the camp. We rely on the responsible provision of food from our parents, and we cannot guarantee that products will not enter the camp setting on morning arrivals.

Without providing and preparing food for children, we have limited control, visibility and therefore limited responsibility for the products that enter the childcare setting.

How Catalan Soccer can mitigate the presence of nuts at Camp:

Make clear to all parents and guardians that nut products are forbidden from children's packed lunches.

Remind all children during the morning brief that any nut products should be removed from lunch boxes and given to camp personnel.

Undertake regular food inspections at break and lunch times & display signage.

Ensure the facility cleaning schedule has been completed the night before with all surfaces sanitised.

Ensure that any nut products sold by the facility are not available to children via bar service or vending machine.

What Catalan Soccer are unable to do:

Ask every child to open the bread to prove the contents or inspect the insides of their sandwiches/wraps/rolls and snacks.

Read the label of every item of food, nor search for the content of non-labelled food.

Catalan cannot guarantee that children have not eaten nut products for breakfast before coming to Catalan Camp and introduce an airborne element through respiration.

Catalan cannot search all children for potentially concealed products that children may not wish to be taken from them.

WAIVER:

Due to our limited capacity to control airborne and concealed allergens, if attending Catalan Camp parent/guardians must take sole responsibility for any adverse reactions their child may experience due to nut exposure.

I understand that Catalan will endeavour to take all reasonable measures to shield children from cross-contamination & exposure, but cannot take responsibility for any ill-health, harm or even death caused by contacts or exposures. By signing the below, or attending your booking having had received this waiver, we take that as consent.

Name: _____

Child's Name: _____
